

The diagram shows a vertical cross-section of a curved tunnel. The tunnel is represented by a thick black line that curves from the top left towards the right. A red line, representing the cutting line, follows the inner curve of the tunnel. Two red arrows point to the left from the text labels 'Voorzijde tunnel' and 'Achterzijde tunnel' at the bottom of the diagram. The background is a light gray gradient.

De rode lijn is de snijlijn.  
Zorg ervoor dat je ontwerp  
doorloopt in de afloop,  
dit voorkomt witranden.

Voorzijde tunnel

Achterzijde tunnel
